## Summary:

Love unifies our world in several ways and it is why the world voluntarily sets aside February, as the month of love. In the past week, we have seen lovers declare their love to their partners in the most authentic way. Sometimes, the vulnerability from such declarations is enjoyable to watch.

In honour of this, London based Nigerian Singer/Songwriter, **Darlington**, has released “**Sweet Love**” to celebrate the special feeling that some of us have experienced, are experiencing, or will come to experience in our lifetime.
